May 16, 2022

The Honorable Peter DeFazio  
Chair  
House Committee on Transportation and Infrastructure  
2134 Rayburn House Office Building  
Washington, DC 20515

Dear Chair DeFazio:

I am requesting funding for the Camden Point Sewer Project in the Water Resources Development Act of 2022.

The project sponsor for this project is the City of Camden Point, Missouri and the project is located at 101 3rd St., Camden Point, MO 64018 (Platte County). The project is located in Missouri’s 6th Congressional District. The purpose of this project is to create a municipal sewage system for the city.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: improve health and safety in the local community, reduce public health and environmental issues tied to the current failing septic tank system, and resolve Platte County Public Health code violations, and allow for future growth of the local school district.

I certify that neither I nor my immediate family has any financial interest in this/these projects.

Sincerely,

[Signature]

Sam Graves  
Member of Congress  

Date Signed: May 16, 2022
