MISSOURI HOUSE OF REPRESENTATIVES

Doug Richey

State Representative
District 38

Congressman Sam Graves
12200 N Ambassador Dr Suite 234,
Kansas City, MO 64163

Dear Congressman Graves,

Please accept this letter as my full support for the efforts of Excelsior Springs and Clay County to secure funding in an effort to address concerns for safer transportation in our hometown.

We request an earmark in the amount of \$3.6 million to reconstruct Wornall Street between Crown Hill Road and Leslie Lane with enclosed drainage, sidewalks & curbs, and a new street surface to provide a safe route to the local schools. In addition, the project would connect to the existing sidewalk to complete the missing links, all in an effort to make travel to Cornerstone safe for our elementary students, as well as those traveling to the Middle or High School, or the Community Center.

I know how important this project is to the community of Excelsior Springs and Clay County, and it is my sincere hope that you will give your full support to this worthy request as we continue working to a safer community for our children.

Sincerely,

A handwritten signature in black ink, appearing to read "Doug Richey", is written over a horizontal line. Below the signature, the text "Representative Doug Richey" and "Missouri House District 38" is printed.

Representative Doug Richey
Missouri House District 38

701 Crown Hill Road
Excelsior Springs, MO 64024

January 8th, 2022

City Hall, Excelsior Springs
201 E Broadway Ave
Excelsior Springs, MO 64024

Molly McGovern, City Manager:

Hello my name is Samantha Canales, and I am a student at Excelsior Springs Middle School. The purpose of this letter is to make a request. My request is to add sidewalks on Crown Hill and Wornall Roads.

We need sidewalks to keep children like myself safe. It is also dangerous for pedestrians in the street. The street is not big enough for people and cars.

Pedestrians are often forced to walk on ice, snow, and mud to avoid getting hit by cars.

Thank you for considering my request. I look forward to hearing from you.

Sincerely,

A handwritten signature in black ink that reads "Samantha Canales". The script is cursive and fluid, with the first letter of each name being capitalized and prominent.

Samantha Canales

Excelsior Springs Middle School
701 Crown Hill Road

Excelsior Springs City Council
201 E. Broadway
Excelsior Springs, MO 64024

Dear Members of the City Council,

I would like you to consider building more sidewalks in the city. Sidewalks would help citizens stay safe. There are multiple areas that need sidewalks around Excelsior Springs. I believe that neighborhoods near our schools are the most important.

When middle school and high school students are walking to and from school a lot of them walk on some very busy roads, like Lynn and Womall, because there are no sidewalks. There are also inexperienced drivers out at the same time. This adds to safety concerns. Another concern is that students that walk in the morning, walk in the dark. They are often hard to see.

If we don't have sidewalks then it is more likely for someone to get hurt. Please take the safety of your children into consideration. This is why I think there should be more sidewalks in the city.

Sincerely,

Jordin Price

Representative Sam Grave

Dear Congressman Graves:

My name is Sharon Powell. I am the Mayor of Excelsior Springs. I have been a resident of this wonderful community since 1976. I raised my children and now have grandchildren using the pathways we are in need of improving around our schools and community center. There are so many stories of children who have been put in harms way walking and riding the bus on these streets. Blind corner with inadequate room to turn are major problems at the corner of Wornall and McCleary.

Our request of \$3.6M to reconstruct Wornall Street between Crownhill Road and Leslie Lane with enclosed drainage, sidewalks & curbs, and new street surface to provide a Safe Route to Schools, connect to existing sidewalk to complete the missing links. Make travel to Cornerstone safe for our elementary students and provide safe travel for our students going to the Middle and High School or the Community Center.

Please help us received this very much needed grant to improve safe passage of our children to and from school.

Sincerely,
Sharon Powell, Mayor
Excelsior Springs, MO

A handwritten signature in cursive script that reads "Sharon Powell". The signature is written in dark ink and is positioned to the right of the typed name "Sharon Powell, Mayor".

SAFE STREETS & SIDEWALKS

We want to hear from you!

Listening Post
June 13, 2021

1. Absolutely MUST have speed control from school east to the stop sign at Crown Hill
2. Would like to see equal width of sidewalk on Wornall Rd. both sides
3. But the entire area needs a lower speed 15-20 mph.

SAFE STREETS & SIDEWALKS

We want to hear from you!

Listening Post
June 13, 2021

Personally, I do not think we should be focusing on the westside business district as the top priority. With Cornerstone Elementary being built, there needs to be sidewalks down Wornall as soon as possible. As a runner, I don't feel as safe running in Excelsior as I do in Liberty or Kearney, because they have the infrastructure. There are a lot of good things being proposed here. Even if the intersection of Wornall and McLeary does not get a ~~four-way stop~~ roundabout, I do think it needs to become a 4 way stop, because people fly over the hill dividing Cherry Hills and Madison Park.

April 20, 2022

To Whom It May Concern:

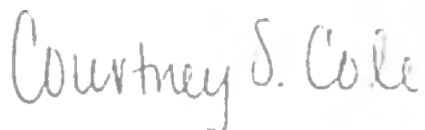

I'm writing in support of the request for \$3.6m to construct sidewalks in Excelsior Springs, Missouri. In my role as an elected official of the Clay County Public Health Department, a board member of the Excelsior Springs Area Chamber of Commerce, and a member of the City of Excelsior's 'Thrive Excelsior', this project is critical to the missions of each organization.

The lack of sidewalks and safe walking routes to school for our children is a public health concern. Currently we have children walking on the edge of the road as vehicles and buses pass them. At certain times of the year, they may be walking in the dark, not to mention visibility if it is snowing or raining. While the elementary school students are bused by the district, we have middle and high schoolers still walking to school each morning in these dangerous conditions.

This project has been a major talking point in the community. The City has offered Listening Posts, to allow citizens the opportunity to ask questions and offer points of discussion. These events have been attended by parents and other stakeholders in the community, all of them agreeing that this project is one that must be done. Online discussions among the community also show a large support for this project.

With the rise in inflation and construction costs due to the pandemic, our small, local municipalities are hurting. This kind of development is costly and your support would assure a safer path for our children to go to school for years to come. Thank you for your consideration.

Thank you for this opportunity,

A handwritten signature in cursive script that reads "Courtney S. Cole". The ink is dark and the signature is fluid, with a large 'C' at the beginning and a stylized 'Cole' at the end.

Honorable Sam Graves
United States Representative
Missouri 6th Congressional District
1135 Longworth House Office Building
Washington, DC, 20515-2506

Honorable Representative Graves:

I am writing in support of \$3.6 million dollar request made by City Manager Molly McGovern of Excelsior Springs, Missouri. Money requested will be allocated for improvement to infrastructure on the West side of Excelsior Springs, specifically safety concerns for our children walking to and from school. Excelsior Springs has four schools located within a half mile of each other in the said area.

Monies received will be dedicated to improve streets and drainage, but, more importantly install sidewalks along with crosswalks for school children to use while walking to and from school. Currently on the West side, our community has no sidewalks and/or crosswalks for school children to utilize. Furthermore, children must cross US highway 69 day in and day out while attending school. US highway 69 is very heavily traveled throughout the day. The current posted speed limit is 45 mph.

Being the Fire Chief of Excelsior Springs, my concern is for the safety of our children. Children lack the capabilities to judge the required distance along with speed of vehicles to safely cross US 69 highway.

Please consider approval of these monies for the City of Excelsior Springs so we can make needed improvements for the safety of our school children.

Sincerely,

Joseph L. Maddick
Fire Chief
Excelsior Springs Fire Department

Caring for Our Community Since 1904

April 21, 2022

Congressman Sam Graves

RE: Monetary Requests for Safe Streets in Excelsior Springs

Dear Congressman Graves,

I write on behalf of the Excelsior Springs Hospital to share my support for the request made for \$3.6M to reconstruct Wornall Street between Crownhill Road and Leslie Lane with enclosed drainage, sidewalks and curbs, and new street surface to provide a safe route to schools, connecting to existing sidewalk to complete the missing links. The request would also make travel to Cornerstone safe for our elementary students and provide safe travel for our students going to the Middle and High School, or the Community Center.

As the Chief Executive Officer for our City Hospital, I have had countless interactions with our City officials, healthcare providers and local businesses. We are all working in tandem to promote health and wellness in our community by offering safe living areas, nutrition, counseling, health and resources for our residents. Many areas throughout the community lack safe streets and sidewalk options. Our Parks and Recreation departments, along with the City have provided many phenomenal upgrades over the years, yet pedestrians with limited transportation options are often put in dangerous situations as they walk to and from their destinations. Our community members deserve to have access to safe walkways and streets. Having safe options that provide access for all ages not only provides a safe environment, but also an aesthetically pleasing picture.

Our Excelsior Springs Communities of Excellence work has focused on housing and healthcare for our community. Equally important is having safe access to our hospital, clinics, schools and Community Center. Leading the discussions over the past two years has been an initiative for safe access to these services. Our city leaders are enthusiastic about the prospect of improved resources to make this vision a reality.

I am pleased to support the efforts of the City to secure funding for our community's need for safe streets and sidewalks. Your consideration for approval and completion of the project will improve the lives of many.

Sincerely,

Kristen T. DeHart

Kristen T. DeHart
Chief Executive Officer

April 21, 2022

Representative Sam Graves
12200 North Ambassador Dr., Suite 234
Kansas City, MO 64163

Dear Representative Graves,

I am writing to express my support for the City of Excelsior Springs' request for funding to re-construct a portion of roadway in front of Cornerstone Elementary School, located at 1901 Wornall Road. This stretch of Wornall Road is the main access road to the school, for both vehicle and pedestrian traffic; Wornall Road is a somewhat narrow, two-lane street without curbs, sidewalks or enclosed drainage. From a public safety perspective, this stretch of roadway presents an increased risk for students to navigate as they walk to and from school while vehicular traffic is also present. The requested monies, if approved, would be used to enclose drainage, add sidewalks and curbs, and new roadway surfacing, which would provide a safer route to the school by connecting it to existing sidewalks. In recent years, the City of Excelsior Springs and the local school district have invested over 22 million dollars to construct the new elementary school, which opened in the fall of 2021, and to provide some much-needed repairs and improvements to the other schools in the city. Unfortunately, the funding was not available to re-construct this portion of roadway. Your assistance with this project would mean so much to this community and would provide a safer environment for children and families going to and from school on a daily basis. Thank you in advance for your consideration!

Sincerely,

A handwritten signature in cursive script that reads "Gregory A. Dull". The signature is written in dark ink and is positioned above the printed name and title.

Gregory A. Dull

April 20, 2022

Representative Sam Graves
12200 North Ambassador Dr.
Suite 234
Kansas City, MO 64163

Dear Representative Graves,

This letter of endorsement and support is on behalf of the City of Excelsior Springs that is submitting a request to receive earmarked funds for infrastructure improvements. The City's proposed \$3.6 million request will be used to reconstruct Wornall Street which includes adding drainage, sidewalks, and curbs.

Currently, Wornall Street presents several significant challenges regarding student and pedestrian safety because they have limited access to deteriorating sidewalks, contend with inaccessible pathways, and an ineffective drainage. The City's request will address these and other endemic safety issues.

Personally, although I just passed my one-year anniversary, I am still relatively new to this community. However, I often run on Wornall Street and am in a continuous state of hyper awareness due to the dangerous road conditions, traffic, and aforementioned hazards. However, this is my choice, I am more concerned with the numerous students who may be exposed to similar dangers. Funding the City's proposal will not only address the significant safety issues.

I fully support the City's efforts from both a personal and professional perspective and wholeheartedly believe failing to provide the requested \$3.6 million for renovating Wornall Street would be an extremely detrimental and unfortunate setback to enhancing the safety and quality of life within the Excelsior community.

For these reasons, and many more, I take great pride and pleasure in supporting the City of Excelsior Springs request for \$3.6 million earmarked funds. Please let me know if you have any questions via email or call/text 660.909.2746.

Respectfully,

Michael Fitzpatrick, Ph.D.
President & CEO

March 25, 2022

To Whom It May Concern:

The Parks and Recreation Department of Excelsior Springs is proud to partner with the City of Excelsior Springs in their effort to acquire a grant to improve our community.

Our Department appreciates the effort of our local City to improve the trail system and to attract more visitors to our parks. With the Parks and Recreation Strategic Plan done in 2021, trails were used in some capacity by nearly 78% of people which was the number one way patrons engage in the parks system. Furthermore, additional trails were also the number one facility improvement patrons would like to see added by receiving nearly 42% of votes.

The Parks and Recreation Department is also in the process of working with national bicycle organizations to have the USBR-51 come through Excelsior Springs, which is a bicycle trail that will connect New Orleans to Minneapolis. This same organization is working to reroute the popular Lewis & Clark Bicycle Route to come through Excelsior Springs in the near future.

Excelsior Spring Parks and Recreation Department appreciates the opportunity to partner with the City of Excelsior Springs in their effort to acquire this grant and to bring more visitors to our local parks and trails for families to enjoy.

Sincerely,

Nate Williams, CPRP, AFO
Director Parks, Recreation, and Community Center
500 Tiger Dr, Excelsior Springs, MO 64024

Dr. Travis Hux
Superintendent
thux@ga.essd40.com

Dear Representative Sam Graves,

April 20, 2022

It is my understanding that the City of Excelsior Springs is eligible for some important funding. It is also my understanding that if the City of Excelsior Springs were to succeed in receiving this funding, it would be used to reconstruct Wornall Street between Crownhill Road and Leslie Lane with enclosed drainage, sidewalks, curbs, and a new street surface to provide a Safe Route to Schools and also connect to existing sidewalks to complete the missing links. This would drastically improve travel to the new Cornerstone Elementary School and create a safe path for our pedestrian elementary students while also providing safe travel for our students going to the Middle and High School or the Community Center.

Currently, many young children and their parents have to walk on the street during the busiest times of the day. Even worse, on trash day, kids have to walk further into the middle of the street to navigate garbage bins that are also sitting in the road. As the superintendent of the Excelsior Springs School District, I have observed the current conditions and I implore you to assist where you can. As a father of a second grade student who attends Cornerstone Elementary, I cannot help but think of all the other parents who also want to make sure their children are safe on their route to school. Please give your full consideration for this much needed funding.

Sincerely,

Travis T. Hux, Ed.D.

From the Desk of
Jesse Hall

April 20, 2022

Representative Sam Graves
12200 North Ambassador Drive
Suite 234
Kansas City, MO 64163

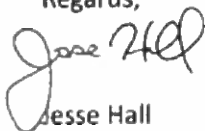

Representative Graves,

As a retired Excelsior Springs School District teacher/coach/administrator and current employee of the City of Excelsior Springs I am very concerned about the safety of pedestrians walking between Crown Hill Road and Leslie Lane on Wornall Street in Excelsior Springs, Missouri. This stretch is an artery leading to Century Park, Excelsior Springs Community Center, Cornerstone Elementary, Excelsior Springs High School and Excelsior Springs Middle School. As you can imagine the foot traffic has increased with an addition of an elementary school and community center over the last five years. This area also host many activities for the school district, youth athletic leagues and Excelsior Springs Parks and Recreation.

It is my understanding that the City of Excelsior Springs has asked for assistance in the amount of 3.6 million for drainage, sidewalks, curbs and new street surface to provide a much needed safety improvement in this area. Please consider this much needed improvement to an area of progress in Excelsior Springs.

Thanks in advance for your consideration.

Regards,

Jesse Hall

April 20, 2022

Congressman Sam Graves

6th District of Missouri

Dear Mr. Graves,

As a lifelong Missourian and a follower of your Facebook page, I am very pleased with your focus on the great needs of Missouri's infrastructure. In addition to bridges and roads throughout the state, many communities are also in need of funding for vital infrastructure. One such opportunity exists in Excelsior Springs, MO – my home town of 55+ years.

I am writing to support our city's request of \$3.6M allowing Excelsior Springs to reconstruct Wornall Street between Crownhill Road and Leslie Lane with enclosed drainage, sidewalks and curbs, a new street surface to provide a safe route to our schools and connect existing sidewalks. Having this necessary infrastructure will provide our students of Cornerstone Elementary, Excelsior Springs Middle School as well as the Excelsior Springs High School safe commutes to and around the educational campus location.

We greatly appreciate your willingness to consider our request and look forward to being able to move forward with this needed project.

Best regards,

A handwritten signature in black ink, appearing to read "Stephen L. Spear", with a stylized, flowing script.

Stephen L. Spear

The Honorable Sam Graves
U.S. House of Representatives
1135 Longworth HOB
Washington, D.C. 20515

Dear Representative Graves,

My name is Mark Spohn. I am a small business owner, City Councilman, and active member of our community in Excelsior Springs, Mo.

I am writing you to express my public support for an opportunity that our city has become aware of to request earmark funding for a \$3.6 million dollar project to reconstruct Wornall Street between Crownhill Road and Leslie Lane, in Excelsior Springs, with enclosed drainage, sidewalks & curbs, and new street surface to provide a safe route to schools, connect to existing pedestrian walkways and to complete the missing links.

This project would make travel to Cornerstone Elementary School safe for our elementary students and provide safe travel for our students going to the Middle and High School and/or the Community Center.

This issue is of upmost importance for our community to provide a safe alternative to children currently walking on a heavily traveled street that connects our elementary school with our community center, middle and high schools.

Thank you for your attention to this issue and thank you for all you do for the great State of Missouri.

Sincerely,

Mark D. Spohn

Re: \$3.6M Earmark for Wornall Street Reconstruction

Dear Representative Sam Graves,

I am writing in support of a \$3.6M request of funding our City has applied for that would address critical infrastructure improvements around our new Cornerstone Elementary School in the City of Excelsior Springs.

If awarded funding, this project would reconstruct Wornall Street between Leslie Lane and Crown Hill Road with enclosed drainage, where it currently has open ditches, new sidewalks and curbs, and a new street surface to provide a safe route to school. This project would connect new sidewalks to existing sidewalks and complete the missing links where there are currently no sidewalks which forces elementary aged children to often walk in the street lanes of traffic and in and around parked cars or across yards. The improvements would greatly improve the safety of children walking between the new elementary school, the Middle, the High School and our new Community Center as they are all along Wornall road.

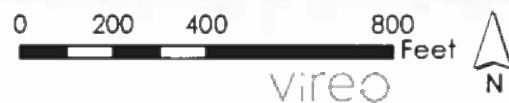

With the much needed benefits that this project has to offer the residents of Excelsior Springs and the surrounding communities that travel here to use our Community Center, I respectfully request that your office can give full consideration to the award this \$3.6 Million Earmark towards the Wornall Street Reconstruction Project.

Sincerely,

Chad Birdsong
Director of Public Works
City of Excelsior Springs, Mo.

5	Some would	3/20/2021 12:48 AM
6	almost exclusively the pedestrians on Womall Road are on the North side of the street...therefore I would recommend a standard sidewalk on the north side and also and a standard sidewalk on the south side (even though it will tear up my beautiful front yard...at the present time there is NO pedestrian traffic on that south side.	3/19/2021 6:20 PM
7	Yes, on the Womall/CrownHill/Lodwick area because of being near schools. The Pedestrian bridge over 69 could be a nice plus for the same reason. A definite NO on Jesse James Rd because no children should be hanging in a business area without adults anyway. NO on the Womall/McCleary area, because both housing areas near that intersection have sidewalks and should be child safe. Kids can use the sidewalks in the neighborhoods to stay safe, even to get to the new school that will be in the area. Also note that bicycles shouldn't be using sidewalks anyway unless adults are supervising *young* children riding bikes on the sidewalks. .	3/17/2021 11:02 PM

22	No sidewalks and someone almost hit my son and I while biking. We had on bright colors and it was daylight	2/23/2021 3:42 PM
23	Going under the train bridge at Jesse James and Wornall both driving and walking. you have to be just at the right angle to see someone coming from either side. Also the crosswalk across Jesse James by Westview. Even with a crossing guard people still go fast and almost get them while they are making sure our kids can get across safely.	2/22/2021 5:14 PM
24	Cars parked in street makes it hard for cars to see you	2/21/2021 1:15 PM
25	On West side by Walmart and crown hill.	2/20/2021 1:50 PM

Safe Streets - Excelsior Springs

26	Walking along Wornall between Crown Hill Road and Leslie I've had to move into the grass to protect myself from cars. There is no safe place to walk.	2/20/2021 9:03 AM
27	Walking in front of my house nearly getting side shipped all the time. S. Titus	2/19/2021 8:34 PM
28	My children would walk home from Hs to North Titus using Wornall has been past several times by cars going to fast. Instead of walking home, they now wait an hour at school or CC for someone to pick them up.	2/19/2021 7:32 PM
29	It was a long time ago (15 or so years ago) but a city truck cut took close to me while I was biking near the golf course, I had to take the ditch and the truck never stopped.	2/19/2021 6:29 PM
30	Blind hill, b on map, couldn't see car while walking.	2/19/2021 5:52 PM
31	Walkers texting and unaware to walk online to allow bikers to pass. I said "passing on your left" and they stepped left right in front of me.	2/19/2021 2:06 PM
32	Got hit by a car mirror as they passed walking on a local street.	2/19/2021 12:04 PM
33	While running, I was on side of road due to no sidewalks and a car sped past me and almost hit me with their side mirror	2/19/2021 11:56 AM
34	Just walking on my own street I've had some near misses	2/19/2021 11:33 AM
35	have to jog on roads around titus, people fly through there and do not pay attention, I have almost been hit multiple times.	2/19/2021 11:03 AM
36	Cars just drive so fast. And due to there being no sidewalks we were on the road.	2/19/2021 10:58 AM
37	High speed traffic when trying to walk my kids to Westview. No sidewalks makes this super difficult from Jesse James traffic.	2/19/2021 10:49 AM
38	Which time? It's a daily occurance as an avid cyclist/runner. People intentionally try to hit you and run/scare you off the road becuase they don't understand traffic laws of yielding.	2/19/2021 10:34 AM
39	lots of accidents at intersections of E and D	2/19/2021 10:25 AM
40	I used to jog in the mornings with my dogs before the sun came up, driver did not see us until they were right up on us. I wear high visual just for this reason but to no avail this time. Street lights and sidewalks are definitely needed more so for our children.	2/19/2021 10:01 AM
41	I have had several people swerve quickly around me along Wornall Rd. because they didn't notice me until the last second. I will no longer walk my children to Century Park even though it's only 0.8 miles away for this reason.	2/19/2021 9:00 AM
42	Fender bender at Tiger Dr and Wornall stop sign	2/18/2021 10:13 PM
43	Kids running biking and walking from school don't tend to pay much attention while on the roads. Many times they dart out or across with little regard for traffic. I also witnessed many instances of reckless regard in part of the drivers who fly up and down wornall.	2/18/2021 8:37 AM
44	Walking to the trail passed Vintage. The hill on McCleary- you can only all in a deep ditch or on the side of the road. People pop over that hill going extremely fast.	2/18/2021 7:27 AM
45	Multiple times attempting to walk to community center from madison. I have quit walking due to all the traffic and cars parked all over the place causing other cars to swerve.	2/18/2021 4:31 AM
46	A few times downtown on Marietta going towards state park	2/17/2021 11:30 PM
47	Several times trying to walk to the west side from downtown especially the train underpass by thunderbird electric	2/17/2021 10:43 PM
48	Cars tend to Steer towards walkers/runners	2/17/2021 7:52 PM
49	Almost been hit walking by speeding cars by Northwind Dr walking the neighborhood.	2/17/2021 7:33 PM
50	People speed through the intersection by Burger King coming into town. Sometimes they run the red light.	2/17/2021 4:16 PM
51	While walking, a car coming over the hill too fast didn't see that we were crossing at Tracy and Lynn.	2/17/2021 3:25 PM
