Re: City of Macon, Missouri Application for Interior and Environment Appropriations  
Community

Dear Congressman Graves:

Please accept this letter of support for the City of Macon, Missouri's above referenced federal grant application.

The City of Macon's application for removal of stormwater from the wastewater collection systems is essential for future economic development. One of the targeted industries for the City of Macon is Agri-business including human and animal food manufacturing and meat processing however, we have had to pass on economic development opportunities that require significant sewer needs. By removing the stormwater from the sewer system, the City may have increased capacity for growth.

Macon County Economic Development supports the City of Macon's request and encourages your favorable consideration.

Sincerely,

Sue Goulder, MO CED  
Executive Director

Re: City of Macon, Missouri Application for Interior and Environment  
Appropriations Community

Dear Congressman Graves:

Please accept this letter of support for the City of Macon, Missouri's above referenced federal grant application. ConAgra is the largest contributor to Macon's sanitary sewer treatment at around 400,000 gallons a day. ConAgra is the largest employer in the city of Macon, at around 350 employees and plays a large role in the success of Macon. ConAgra has worked to improve our pretreatment process and have worked closely with the City of Macon to reduce strength of wastewater to be treated. Again, please accept our letter of support for the City of Macon for the referenced federal grant.

A handwritten signature in blue ink that reads 'Brian Gray'. The signature is fluid and cursive, with the first name 'Brian' and last name 'Gray' clearly distinguishable.
