Congressman Graves,

The Clay County Sheriff's Office is committed to service, transparency, and accountability to its citizens. While the Clay County Commission has been supportive of the Sheriff's Office and its operating needs, there are opportunities to serve that cannot be fully funded by the available budget.

The additional funding the Sheriff's Office is seeking with the CFS grant would make it possible to bring additional services to the community as well as increase safety, response capability, and give the Sheriff's Office equipment to make it a powerful ally to communities and other public safety groups in the Kansas City Northland.

Thank you for your consideration of this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Will Akin".

Will Akin  
Clay County Sheriff
